## Just Lauched my site

Posted by becerro - 2006/04/27 02:41

---

I've just launched my site GaliciaRealty

Thank you for this fantastic component.

I hope I will make a lot of money with this so Darko can take his part :)

Only "send to a friend" link is not working well, but I will read the posts at the forum to fix it :P

Greetings from Galicia

Hi ! Nice site.

I have the same problem with "send to a friend" function. Have studied everything in the forum but it seems that "obj id" remains empty all the time trying to send the link to a friend's email. Please let me know, if you found a solution to the problem.

My email : argylos@hellasestates.com

Thks  
argylos

Hi.!

I have just visited your site and find a small problem:

I can only see the top part of the letters in the left side menus. Its are cutted more or less at the mid.

I'm using explorer 7

Grettings from Marbella.

Yup! The best and easiest to use. I'm so glad I took the time to vet through all the components and found the one I needed for my new site

Will blab about it once its finished.

Thank you thank you thank you
