
Creation date?

Posted by webknecht - 2007/02/06 08:55

Hi,
just updated one EA Installation to 1.02a Version for testing. Beneath the problems mentioned here in this forum I now miss the creation date of the offer. If creating a new offer, the shown creating date is 00-0000-00.
Any solution for this problem?

Hi!

I use misterEstate 1.1. I find this problem with this version. I resolved problem with this modification in user.estateagent.php

```
$obj->created = $obj->created ? $obj->created : date( "Y-m-d" );  
Replace with: $obj->created = date( "Y-m-d" );
```

My hungarian misterEstate page is: Hajdú Bihar megyei ingatlanportál
