
Bulgarian Language ME1.1.0

Posted by victorio404 - 2007/06/25 07:47

Just translated few new lines in the bulgarian language file for the 1.1.0 release:
http://firstlinebgproperty.com/upload/ME1.1.0_bulgarian_1251.zip

most of the lang files are utf-8 , this is windows-1251 encoding, it will be a problem for bulgarian members who use joomla- from joomla-bg.com, so if u have problems just change first line with encoding ..)
