Hi admin.

MisterEstate is a great component.

Respect to the slide, it's inside a marquee. Is necessary use the html marquee.

The table for the module (in this case: latest\_image) has inside to the html marquee.

If you want, I send you the modified module for latest\_image.

Cheers

Pozdrav sa Kariba,  
(upravo nas je mimoisao Uragan Dean)

Prvo nedostaju ti images na prvoj strani za RSS:  
[http://www.juve.hr/components/com\\_estateagent/gui/rss.png](http://www.juve.hr/components/com_estateagent/gui/rss.png)

pa onda za vremensku prognozu:  
[http://www.juve.hr/modules/JoomWeather/templates/default/icons/n\\_0cloud.png](http://www.juve.hr/modules/JoomWeather/templates/default/icons/n_0cloud.png)

i nedostaje slika kad nemas image:  
[http://www.juve.hr/components/com\\_estateagent/pictures/nopic.png](http://www.juve.hr/components/com_estateagent/pictures/nopic.png)

Posebne ponude su zaista lepe, mozes li da ubacis u attachemt i postujes ovde?

Ja smatram da Search skroz gore je nepotreban, i Galerija, hmmm lepe su slike u Galeriji ali bi trebalo zaista da prodajes nekretnine, jel?

Probaj da skines Search i Galeriju, a da na vrhu bude Posebna Ponuda, ispod Tecajna Lista (iliti kursna lista, :) pa ispod toga Vreme, tako da bi informacije bile sa desne strane a linkovi sa desne.

Inace kombinacija boja mi se sviđa, belo, plavo i kontrastna narandzasta.

Milos Korac B)

Does this module work for you guys? I've got a Fatal Error during installation .. here it is ..

Fatal error: Call to undefined method DOMIT\_Lite\_TextNode::getAttribute() in  
/mnt/data/accounts/m/xy/data/www/joomla1013/administrator/components/com\_installer/installer.class.php on line 312

This module was tested only with Joomla 1.0.12

I don't know how it works in Joomla 1.0.13

If you review the code of this module, the only I added the line for marquesine html.
