
want to disable extended Search

Posted by baucher - 2007/11/07 23:56

Hi all,

I'm using quick Search module, i would like to disable the link "Extended search"

i just want users do a simple and easy search, i don't want the extended form

do you know how can i disable it?

thanks!:woohoo:

Maxi

Go to module source code of the search module in folder /modules/.php

And use any simple PHP Editor like PSPad (<http://www.pspad.com/>) and simple search the word: `_EA_SRCH_PART_EXT` and hide the source with `/*.....*/` for php and for html

If you need more help just use contact form on <http://www.modernabg.com>
