
remove tables ?

Posted by cdm - 2007/12/04 01:13

how can I remove one of these tables ?

<http://img205.imageshack.us/img205/6214/snap1ty7.jpg>

tnx

well I solved this.

I just edited file:

`/..._estateagent/gui/templates/extended/details.php`

now how could I add border to image gallery thumbs ?

tnx

- 1) In ME template file find table/cell which is used for image display,
- 2) add to css file:

```
.your_class img {  
padding:1px;  
margin-left:1px;  
margin-bottom:1px;  
border:1px solid #666666;  
}
```

- where "your_class" is class of table/cell
- padding is distance between image and border (can be increased by 2px, 3px ...)
- margin is distance from other pictures (use "margin-left" & "margin-bottom" only for extended template. That way images shown in next row won't connect with one above. For default template use only "margin-bottom" style).

- can be "id" not "class". In that way use "#" instead "." in front of "your_class"

Pozdrav

thank you for your answer.

But still can't figure which files I should edited, not very good with css, sorry.
Could you point me to files.

Hi,
Choose the extend template in the configuration in he back-end.
Open in a CSS editor (Dreamweaver for example) the file template_css.css in the folder
components/com_estateagent/gui/templates/extend/

After :

```
div.MEBlock1 {  
width: 100%;  
text-align: center;
```

Add :

```
.MEBlock1 img {  
padding:1px;  
margin-left:1px;  
margin-bottom:1px;  
border:1px solid #FF9900;
```

Change the #FF9900 with your color

It's done

thank you,
It's working well in IE but not in Firefox. In Firefox it works only on mouse hover. Anyway I'm pleased.

greetz
