
gallery issues

Posted by HaDo - 2007/12/04 01:24

i have searched thru the forum, and it looks like a ghost town... no one answer the posts, but i'll try it anyway

the thing is that i can't upload any pictures, it keep showing an error

Sorry, no access to this source. Please log in!

am the superadmin by the way :S ... can anyone help me please?

there are fixes in this forum if you run 1.0.x AND your server's PHP/mysql are NOT version 5.

Search the forum for authEA.php and you'll find some fixes that I've used in the past and will most probably solve your problem.

Good luck
