
Thumbnail problem URGENT

Posted by maxba - 2007/12/07 03:45

Hello

Can someone please open this link and try to click at some image.

http://agent.ba/invest/index.php?option=com_estateagent&act=object&task=showEO&id=2

It doesn't open it at all, only white background. Does anyone know how to fix this problem please???

Second: Opent this link in IE. The page is not open directly. I think that the problem is with template but if someone know how to fix this also i'll be very gratefull.

Thanx in advance
