
estate agent contact details

Posted by steph - 2007/12/13 20:55

Hi there,

I'm struggling to change the contact details of an already created estate agent profile. I can't seem to find the contactmanager as suggested in a previous post to assign different estate agents to different properties. Please help. Thank you in advance

Hi, I don't speak english, I understood that you're confused about Contacts or Agents to MisterEstate right? Ok, you can have new agents in the Contacts Components, when Mister Estate was installed in this component(Contacts) you can see a new category: EstateAgents(MisterEstate), here u can create a new agent to your mister estate ok.

I hope that my response can help u :lol:

Sorry by my english, I'm from Ecuador

Hola. Te pregunto si lograste filtrar los inmuebles por usuarios, si es así como lo hiciste. Gracias
