## undefined property: gallery, map24 , gmap

Posted by flerd - 2008/01/06 17:26

---

Hi there!

i had the problems, if the display maps option were both disabled:  
(version: MisterEstate 1.1.0)

Notice: Undefined property: gallery in  
/usr/local/www/hosts/opra\_hosts/profimunkaruha.hu/www/components/com\_estateagent/gui/templates/template.class.php on line ...

Notice: Undefined property: gmap in  
/usr/local/apache2/htdocs/campos/components/com\_estateagent/gui/templates/extended/details.php on line 117

Notice: Undefined property: map24 in  
/usr/local/apache2/htdocs/campos/components/com\_estateagent/gui/templates/extended/details.php on line 135

i have searched on the forum for a long time, but haven't found the good solution... but luckily i have found it by myself  
(with the help of other forum topics)

so, simply do the following:  
in the file:

- components - com\_estateagent - gui - templates - template.class.php

search for this:  
var \$thumbsinline = 1; (probably in line 36)

add these after that line:

```
var $gallery =";
```

```
var $map24 =";
```

```
var $gmap =";
```

and it would work as it should be (i hope ) :cheer:
