## Little change in \"financial information\"

Dear Darko,

first of all let me say, how great your work is, your program really helped me out, thanks for this!

I nearly found everything to adjust it for my needs, but one thing lets my hair become grey: I cannot find out how to simply change the order of the "financial information". Please take a look at <http://www.real2000.at/immobilien/images/misterestate.jpg> and you will see what I need. Where can I find this?

Thanks in advance and all the best wishes from Austria  
Andi
