
French Language ME 110

Posted by keaw - 2007/07/30 23:39

Good evening, I have translate the English version to French for the version ME 1.1.0 It may be that there remain errors... do not hesitate with the modifiers!

Thank you. ;)

Download here : http://keawparis.free.fr/dl/frenchlanguage_ME110.zip

WE are currently redoing the French Language file for the latest version of ME. It should be ready shortly once we tested it.

Please be patient as we are working on a ME site that is both English/Spanish and French.

There are many errors in the lang files, but part of what we do as developers is to work out the errors and not as I've seen throw out bad comments or insults as I've come across in many of the posts.

I will post a thread for the new French Lang file as soon as it is ready.

Thanks in advance

French Language file for version 1.10 is completed except for the finance calculator.

It has been tested and so far is stable

I'm not sure the quick reply worked.

fetchiz@free.fr

Thanks !

I see it is still not in the uploads section.

The only thing not translated is the countries. If you note any errors or need for changes please post them here once you have tried the language addon. As far as I can see it works well with no errors.

Let me know if you have any issues

just rename this to french.php and install. If using ftp, make sure you use binary mode for upload

'tain

c'est toujours la même chose avec les français :
tout se fait en cachette... pas étonnant que notre economie soit aussi down...
