
Price 0.00 it take the previous object price

Posted by tmp_user - 2007/09/07 01:23

When i set the price from a object 0.00 the system take the price from the previous object in the objectlist.

Please Help!!!

I found in the estateagent.html.php file in line 311 - 319 not incorrect code.

```
<?php    if($obj->type == 1 || $obj->type == 3) {
        if($obj->rent != 0.00) $value = number_format($obj->rent,0,$params,$params) . " " . $params;
        }
        else{
        if($obj->price != 0.00) $value = number_format($obj->price,0,$params,$params) . " " . $params;
        }
        echo EAObject::parseCategoryShortInfo($params,$value,EAObject::countryISOtoName($obj->country),$obj-
>state,$obj->town,$obj->district);
        ?>
```

The solution:

in the estateagent.html.php you have to change line 311 - 329.

```
<?php
if($obj->type == 1 || $obj->type == 3) {
    if($obj->rent != 0.00) {
        $value = number_format($obj->rent,0,$params,$params) . " " . $params;
    }
    else {
        $value = "Preis auf Anfrage";
    }
}
else{
if($obj->price != 0.00) {
    $value = number_format($obj->price,0,$params,$params) . " " . $params;
}
else {
    $value = "Preis auf Anfrage";
}
}
echo EAObject::parseCategoryShortInfo($params,$value,EAObject::countryISOtoName($obj->country),$obj-
>state,$obj->town,$obj->district);
?>
```

the solution offered will show PRICE ON DEMAND instead of "Price:0.00" but will do nothing about picking the price from previous object in listings ... and that one is a long lasting headbreaker

Re:Price 0.00 it take the previous object price

Ok... problem at Category page solved. The price appears \$ XXXXXXXX... but in the property page stills appears XXXXXXXX \$
¿How can fix this?

Thank's.

hi, this works for me but only for the current offer...
in the hot offer listing every property and not only the zeros, displays a string..

sorry bad eng.
any solution?

Hi,
thanks for the code, it works fine for. I just have one question:
Can tell me what I have to to translate "Preis auf Anfrage" in other languages.

I'm so glad you fixed this with your code.

sorry for my english
best regards

carolina
