
some menu images no appear

Posted by delfinul - 2008/03/13 12:46

Does any one know why some menu images in EA are not shown, (clone-image), (gallery-image) , (delete-image)??

How I repear this problem ??

I have solved this problem. Try to copy all images from

\administrator\images

to

\images

This has helped to solve the problem in my case
