
I can't see google maps

Posted by uzzu - 2008/04/01 18:41

In the maps section in Configuration panel of misterestate, i set the "lid map24" and the "GoogleMap API-Key", i set also "map24 support" and "Google use" values to "yes" but on front end i can't see the google map with estate position..

Why?

where am i wrong?

Can you tell me something else about?

Thank you advanced
