
how can i change the fields in object data

Posted by shadowstarr - 2008/04/14 18:51

hi!

i'm trying to redefine the fields in the object data area (backend/frontend). how i can change the size and the maxlength?
i've changed the user.estateagent.html.php on line 361-435 without any results?

can someone help me?

answers in english or german!
