---

Hello, i am french so sorry for my langage.

I have download the latest MisterEstate version 1.1.0  
i have 2 questions:

1. How to add a contact (in the presentation of the house for example)? i have add a contact in contact componant, for the category i choose MisterEstate. And what i have to do after ?? the field is empty...

2. when i whant to send a mail, i enter:name, mail, message.

When i clik "Send", i have a message who say i have send a mail...

But i never receive this mail. I have enter my email at the configuration of joomla and that's all. What i have to do ?

Thanks and sorry for my english
