## 404 Error with Gallery Upload

Posted by Fatlad - 2008/01/17 17:57

---

I am new to this forum and have just installed the latest ME, when trying to upload to the gallery I get the following message.

### Internal Server Error

The server encountered an internal error or misconfiguration and was unable to complete your request.

Please contact the server administrator, [webmaster@xxxxxxxx.com](mailto:webmaster@xxxxxxxx.com) and inform them of the time the error occurred, and anything you might have done that may have caused the error.

More information about this error may be available in the server error log.

Additionally, a 404 Not Found error was encountered while trying to use an ErrorDocument to handle the request.

Can someone please advise

On the home page it says that the only way ME can continue is for people to donate. I would be glad to donate if I can get advise on how to get the component to work correctly on my site.

After checking every post on Gallery and 404 error, I have found that mostly it is when the sites are hosted on Siteground. Mine is also hosted with them, has anyone found a solution?

Hi mate,

I had same problem and im on siteground... but for me it was solved on the way that I just turned the globals on...

so go to globals.php and change the globals 0 to 1 and it should work... then again its security risk...

```
/**
 * Use 1 to emulate register_globals = on
 * WARNING: SETTING TO 1 MAY BE REQUIRED FOR BACKWARD COMPATIBILITY
 * OF SOME THIRD-PARTY COMPONENTS BUT IS NOT RECOMMENDED
 *
 * Use 0 to emulate regsiter_globals = off
 * NOTE: THIS IS THE RECOMMENDED SETTING FOR YOUR SITE BUT YOU MAY
 * EXPERIENCE PROBLEMS WITH SOME THIRD-PARTY COMPONENTS
 */
define( 'RG_EMULATION', 1 );
```

Hi i also have the problem when i try to open gallery i get this:

The server encountered an internal error or misconfiguration and was unable to complete your request.

Please contact the server administrator, [webmaster@operarius.operarius-croestates.com](mailto:webmaster@operarius.operarius-croestates.com) and inform them of the time the error occurred, and anything you might have done that may have caused the error.

More information about this error may be available in the server error log.

Additionally, a 404 Not Found error was encountered while trying to use an ErrorDocument to handle the request.

i also have siteground hosting and in my Error Log in cPanel i have this errors:

: error: directory is writable by others:  
(/home/operariu/public\_html/operarius.hr/components/com\_estateagent/includes/gallery)

File does not exist: /home/operariu/public\_html/operarius.hr/500.shtml

Premature end of script headers:  
/home/operariu/public\_html/operarius.hr/components/com\_estateagent/includes/gallery/admin.gallery.html.php

i tried to set the (RG\_EMULATION', 0) without any result

Please if someone knows how to resolve this problem helpe me
