
could not add properties via frontend

Posted by wolfgang071 - 2007/09/26 21:29

Hi,

I use MisterEstate 1.1.0 and joom!fish. Whatever I try I could not add properties via frontend. error 404, /ru/angebote/.htmlnew File not found - shows up. Could you please help me to find out what's going wrong?

Hello,
I just installed ME and Artio JoomSEF and am getting the same Error. The SEF is putting the "task" after the .html (e.x. - http://domain.com/Valencia-Office-Space-For-Rent/4.htmlnew

Did you ever find a solution to this problem wolfgang071, or can you anyone please help? :huh: Thanks in advance!
