
Instal error: create table failed

Posted by lkolkman - 2006/01/06 00:51

Hello,

Can anyone help me with the following problem:
When uploading/installing the component i got the following error:

SQL Error DB function failed with error number 1064
You have an error in your SQL syntax near 'ENGINE=MyISAM' at line 53 SQL=CREATE TABLE `jos_estateagent`

joomla version:1.0.4
php version:4.3.2
mysql version: 3.23.58
ea version: 1.0 RC1

Please help,

Thanks in advance,

Lucien

lkolkman:

Its very simple, i think. Put first the database.php file in includes, on your directory. Next, install your EA version.

Is this file working properly with also Joomla 1.0.3 Stable?

Hi,

there?s no need to download and change the database.php.

The problem seems to be this line when using a mySQL-database version 3.23.x:

ENGINE=MyISAM

Open the estateagent.xml and change it everywhere to:

TYPE=MyISAM

Then it should work.

kinldy regards,

Darko

:) Thank you very, very much!!!! :)

This solved my problem.

Regards,

Lucien
